Container Freight Station (CFS) and Related Services

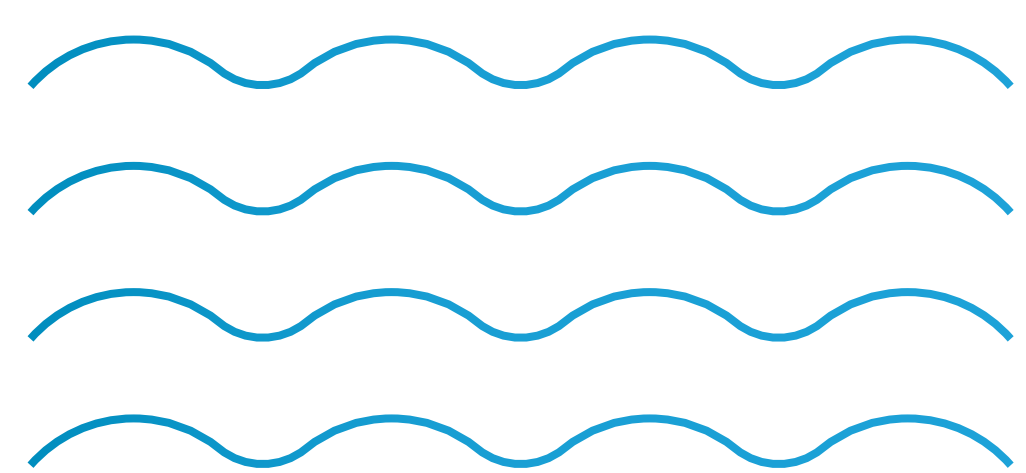

Naviglobal Line leverages a robust network of Container Freight Stations (CFS) at both origin and destination to manage LCL cargo. These services are fundamental to the LCL business model and ensure the smooth flow of goods.

Origin CFS Services:

- **Cargo Reception:** Receiving and tallying cargo from multiple shippers from the freight forwarder's clients at the origin CFS.
- **Consolidation:** Combining individual LCL shipments into a single FCL (Full Container Load) for efficient transport.
- **Documentation:** Handling all necessary export documentation and procedures.
- **Stuffing:** Loading consolidated cargo into containers.

Destination CFS Services (Jebel Ali):

- **Deconsolidation:** Unloading and separating the consolidated shipments from the container upon arrival.
- **Customs Clearance:** Facilitating the customs clearance process for all individual shipments.
- **Storage:** Providing secure, temporary storage for cargo awaiting pick-up.
- **Delivery:** Arranging for the delivery of cargo to the final consignee.

THE NEUTRAL SERVICE ADVANTAGE

Naviglobal Line's commitment to being a neutral service provider is a cornerstone of its value proposition. By not engaging in direct competition with its clients, the company builds trust and long-term partnerships with freight forwarders. This neutrality allows forwarders to benefit from Naviglobal Line's extensive network and competitive rates, while still maintaining full control of their client relationships. This model ensures a collaborative and non-competitive environment, fostering a strong and efficient supply chain for the entire logistics community.
